DEEPSYSTEM

SINGER / SONGWRITER / PRODUCER

ROMANIA / ENGLISH + SPANISH

Music you come back to.

DEEPSYSTEM is the music project of Andrei, a Romanian singer, songwriter and producer. His songs bring dance and Europop together with reggaeton and Latin pop, in English and Spanish. From the early releases to the Locura y Amor album, his work follows a simple thread: melodies, emotion and rhythms made to keep playing.

DANCE / EUROPOP

REGGAETON / LATIN POP

THE ARTIST

DEEPSYSTEM

DEEPSYSTEM is the music project of Andrei, a Romanian singer, songwriter and producer working across dance, Europop, reggaeton and Latin pop. He writes, sings and produces his music in his own studio in Romania, recording in English and Spanish.

Music started at home, around his father's DJ equipment. By sixteen, Andrei was working as a club MC; hip-hop mixtapes came before the DEEPSYSTEM project began in 2009. The songs that followed include Hey My Love, Born 2 Love You, Mr. DJ, Sin of Life, Dimelo and Solo Tu.

The more recent catalogue moves between the electronic rhythms of Rhythms of the Heart and the Latin direction of Locura y Amor. Yo No Miento closes that album's story. Official music videos, release stories and links to listening services are collected at deepsystem.ro.
